PROFESSIONAL SUMMARY

Senior Technical Support Engineer with 5+ years at Salesforce Government Cloud — functioned as de facto Tier 3, served as approval point for network escalations, and covered T3 lead responsibilities for DOJ, FBI, and public sector clients under CJIS compliance and strict SLA requirements. Hired and technically evaluated 7+ engineers including internal candidates. Built the team's network escalation framework and created internal training content independently. Active Salesforce certifications. BS in Computer Science, Portland State University.

PROFESSIONAL EXPERIENCE

Senior Technical Support Engineer • **Salesforce** • Jan 2022 – Jan 2025

Government Cloud — High Complexity Developer Support | Remote

- De facto Tier 3: sole approval point for network case escalations; covered T3 lead for DOJ, FBI, and public sector clients under CJIS compliance and strict SLA requirements.
- Hired and technically evaluated 7+ engineers, including conducting Apex/SOQL assessments for various external and internal transfer candidates.
- Independently built the team's network escalation framework — triage steps, source/destination analysis, handshake interruption patterns — adopted across all T2 engineers.
- Created training scripts and content for Salesforce's internal support YouTube channel used in Gov Cloud onboarding.
- Diagnosed complex issues across Apex, SOQL, LWC, Aura, REST/SOAP APIs; performed deep HTTP log analysis via Splunk. Maintained 4.89/5 CSAT.
